Vol. 28 No. 11

Presidents Message:

Doug and I just returned from a wonderful trip to the Oregon Coast. We were celebrating our 50th wedding anniversary. Our son and his family flew out from Ohio to celebrate with us and our daughter and her family from South Jordan joined us as well.

Sitting at the table over dinner looking at our grandchildren we realized our union had created the start of these “people.” I’m sure you all have looked at your families thinking the same thing. It is fun to see the different traits that you can trace back to your parents and grandparents; especially since each one of us is unique.

We have had 50 years of ups and downs (mostly ups) and we are living up to our pledge and commitment which brings me to the nominations for our Bonneville Austin-Healey Club. Since we all have voluntarily joined the club, we have committed to the preservation and running of the club.

We always have a pretty good turnout at our club meetings and parties and I think each of you would be willing to be an officer in the club. Perhaps you cannot commit to a position that involves your participation each month, but you would be willing to take on one project or event and see it through to its end. Maybe submit an article for the newsletter.

November 8 is our club meeting where we nominate “new” officers for next year. Let’s step up and volunteer for some of these positions.

By the way, have you noticed how beautiful the weather has been this month of October? Maybe we shouldn’t be so quick to put off the travels to places like Jackson Hole in the middle of October.

Keep ‘em rolling,
Ann

FROM THE EDITOR:

Here it is already November and the snow is just around the corner.

For members who store their cars for the winter, I would like to remind you to do the following, 1. Change your oil and filter, 2. Check that your brake fluid is full and clean (bleed if needed), 3. Check you coolant (freshness, and temperature range), 4. Take the load off your tires, 5. Remove the battery and place on a low amp maintainer. 6. Give the car a thorough cleaning, inside and out, apply a good wax. Or you can do as I do and drive the car on dry road days (at least once a month), and perform normal maintenance at the scheduled miles/time.

Another November event is the annual Nomination of Bonneville Austin Healey Club officers. As Ann mentioned in her article, It would really be nice to see some different members participating (newsletter editor?). Along with the nominations is the AHCA delegate’s meeting. The tentative schedule has no big changes to how things operate, but you never know what new business is brought up. I currently do not have the projected budget, but should have one by the meeting, if you are interested.

I have heard that Steve Pike will be bringing back the Streamliner replica for another go at 200 MPH next year. He is planning on running the car at Speed Week and then having the car on display at Pebble Beach. More on this as I learn it.
Happy Healeying,
Dave

A Quiz on Observation

The next page has photos taken at the Colorado English Motoring Conclave of BAHC member Steve Schweitzberger's hybrid Healey?

The quiz was taken from the September-October issue of the Austin Healey Magazine.

SEE HOW GOOD YOU ARE TEST YOUR HEALEY SAVVY

PUZZLERS | QUIZZES | TRIVIA

While perhaps not for the purists this whimsical one of a kind, "Frankenstein-Healey-MG" owned and built by Steve Schweitzberger of Denver, CO certainly gets plenty of quizzical looks and attention when driving down the road. Steve says he is a member of the Bonneville Austin Healy Club - "I keep asking them for two miles of salt or a guaranteed radar speeding-ticket to prove my car will not fall apart at 130 (estimated top speed) if I ever drive Frankenstein to Utah". This photo was taken last September at the Colorado Conclave. A short story follows on the next page.
