Vol. 22 No. 1

## President's Message

### Hope For The New Year

What are you hoping for in the New Year? If I share a few things that I am hoping for, maybe you will be able to find yourself hoping for these things also.

I am hoping that all in our club will be well this year and able to share their lives with us so that we may enjoy their companionship and friendship.

I hope that each one of us will think about what events and activities the group would enjoy doing this year and come to the next meeting prepared to share your ideas with the rest of us. At that meeting we can list the possibilities, discuss them and then vote to decide on the most popular ones. Those that are chosen can then be matched up with the months of the year to form a calendar of events.

I am wishing that we can all learn as much or more than we did last year and that our individual skills will continue to improve, especially mine that probably need more progress than the rest of you.

I am hoping that the experts among us will not grow tired of teaching and sharing. None of us will be around forever, so if we are to perpetuate our hobby, we must prepare those who will follow us to take over.

I wish that none of our cars will present challenges in this year and have no major problems. I guess that most of us will have some British car issues, but I hope they will be small.

I hope that all our shows will bring happy memories to our fans and encourage others to join with us.

Last of all I am hoping someone will be able to fix my car so that it will run and I will be able to enjoy participating with you this year.

I wish you all a very happy new year,  
Jim Pearce
